"Craftastic" Art Classes

Monday, June 15th

10:30-noon:

Texture Time Age: 4-5+ Fee: \$6

Create a collage with a variety of textures – Magic Nuudles, Wikki Stix, feathers, and more. Perfect for preschoolers.

1:00-2:30 pm:

Sand Art Age: 5-6+ Fee: \$6

Make colorful pictures using special sand. Pick a design, peel off a section, choose one of eight colors of sand and shake. PLUS Learn about "Powder Art."

3:00-4:30 pm: New Class!

Fold it Up Fun Age: 7+ Fee: \$8

Make a variety of origami figures and then set them up against a backdrop. Choose between Safari, Sea Life and Dinosaur themes.

Tuesday, June 16th

10:30-noon:

Bead Creation Magnets Age: 4-6+ Fee: \$6

Use plastic beads to design an original work of art. Take your project home to proudly display on your refrigerator. Great for siblings of various ages.

1:00-2:30 pm:

Sparkling Sun Catchers Age: 6-8+ Fee: \$6

Catch the beauty of the Colorado sunlight in your specially created Sun Catcher. PLUS Learn about "Powder Art."

3:00-4:30 pm:

Pirate Adventure Age: 7+ Fee: \$8

Set sail for adventure by creating your own message in a bottle. Decorate a canvas treasure map and paint a mini treasure chest. Don't miss the fun or you'll walk the plank. Back by popular demand!

Wednesday, June 17th

10:30-noon OR 1:00-2:30 pm

Presents for Pop! Age 4-8+ Fee: \$8

The perfect class for siblings. Younger children will make a keepsake handprint while older children use their artistic talents to paint a special mug and fill it with chocolate kisses, or make a wind chime perfect for dad's deck! Children will also create a Father's Day card!

Wednesday, June 17th

3:00-4:30 pm:

Loop 'n Loom Age: 7+ Fee: \$8

Sip on some lemonade and listen to classical music while you use a loop & loom to make a traditional pot holder for yourself or as a gift.

Thursday, June 18th

10:30-noon:

Tissue Art Age: 4-5+ Fee: \$6

Use a rainbow of tissue paper squares to make an original work of art. Choose your pattern, peel off a section, & crunch up the tissues to stick and make a creative colorful picture.

1:00-2:30 pm:

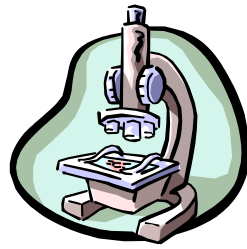

Sticky Mosaics Age: 4-7+ Fee: \$6

Use a rainbow assortment of sticky backed foam squares to create a masterpiece. Fun and easy! Perfect for siblings. A favorite!

3:00-4:30 pm:

Sweet Treat Clay Boxes Age 6-8+ Fee: \$6

Use amazing air-dry clay to turn a plain trinket box into a "looks almost good enough to eat" treat box! We'll be filling the boxes with sweet treats

NEW THIS YEAR – TWO DAY CLASS!
Monday, July 20th AND Tuesday, July 21st
 The following are TWO DAY classes;
 children will need to attend both days.

10:30-noon:
A Bee's Knees Age: 5-8 Fee: \$14
 Learn about the parts of bees and their jobs. Make a model of a bee and a gigantic flower. Don't get stung!

1:00-2:30 pm:
Mysteries of the Earth Age: 7-9+ Fee: \$16
 Discover the different layers of the earth. Make a model of the earth. Create a volcano and watch it erupt!

3:00-4:30 pm:
Fast Flyers Age: 7-9+ Fee: \$16
 Test the secrets of air pressure and how it affects aviation. Create a fleet of fast-flying airplanes that overcome the forces that normally keep us earthbound.

Wednesday, July 22nd

10:30-noon:
Dinosaur Discovery Age: 5-8 Fee: \$8
 A dino digging adventure for the junior paleontologist! Learn about dinosaurs as you do a mini-dig. Keep what you find. One of the favorites!

1:00-2:30 pm:
Bones, Joints & Muscles Age: 6-8+ Fee: \$7
 Learn about the relationship between bones, joints and muscles and how it affects movement. Make a ball and socket joint.

3:00-4:30 pm:
Great Geysers Age: 7-9+ Fee: \$8
 Use a special geyser tube (yours to keep), soda and Mentos to perform a variety of explosive experiments. Back by popular demand!

Thursday, July 23rd

10:30-11:45 am:
Be Science Wise - A Age: 4-6 Fee: \$7
 Experiment with the marvels of magnets, magnifiers and measuring tools. Preschoolers will explore the topics as they visit different centers. Take home a magnifier!

1:00-2:30 pm:
Stormy Weather Age: 6-9+ Fee: \$8
 Tornadoes and hurricanes are part of this exciting hands-on science adventure. Take home a tornado tube to create your own swirling vortex.

3:00-4:30 pm:
Detective Science Age: 6-8+ Fee: \$8
 Develop powers of observation with a variety of hands-on activities. Dust for fingerprints and learn how to read clues. Take home a magnifying glass to continue your investigation.

Monday, July 27th

10:30-11:45 am:
Be Science Wise - B Age: 4-6 Fee: \$7
 Preschoolers will classify rocks, make predictions about items that will sink or float, and explore how the height of a ramp affects the distance a ball will travel. Leave with a ball to continue exploring at home!

1:00-2:30 pm:
Dinosaur Discovery Age: 5-8 Fee: \$8
 A dino digging adventure for the junior paleontologist! Learn about dinosaurs as you do a mini-dig. Keep what you find. One of the favorites!

3:00-4:30 pm:
Great Geysers Age: 7-9+ Fee: \$8
 Use a special geyser tube (yours to keep), soda and Mentos to perform a variety of explosive experiments. Back by popular demand!

Tuesday, July 28th

10:30-noon:
Rock of Ages Age: 6-8+ Fee: \$8
 Learn all about the different types of rocks. Test the rocks using various substances. Take home a collection of rocks.

1:00-2:30 pm:
Detective Science Age: 6-8+ Fee: \$8
 Develop powers of observation with a variety of hands-on activities. Dust for fingerprints and learn how to read clues. Take home a magnifying glass to continue your investigation.

3:00-4:30 pm:
Stormy Weather Age: 6-9+ Fee: \$8
 Tornadoes and hurricanes are part of this exciting hands-on science adventure. Take home a tornado tube to create your own swirling vortex.

Wednesday, July 29th

10:30-11:45 am:
Be Science Wise - C Age: 4-6 Fee: \$7
 Preschoolers will observe types of clouds, classify animals, and learn about their five senses while playing games and participating in hands-on activities. Take home an insect finger puppet!

1:00-2:30 pm:
Stormy Weather Age: 6-9+ Fee: \$8
 Tornadoes and hurricanes are part of this exciting hands-on science adventure. Take home a tornado tube to create your own swirling vortex.

3:00-4:30 pm:
Science of Special Effects Age: 6-8+ Fee: \$8
 Kids love special effects, and now they'll be able to understand the science behind them. From balance to gravity, air pressure to magnetic attraction, key concepts are explored as kids engage in various experiments. Take home one of the class projects!

Thursday, July 30th

10:30-noon:
Dinosaur Discovery Age: 5-8 Fee: \$8
 A dino digging adventure for the junior paleontologist! Learn about dinosaurs as you do a mini-dig. Keep what you find. One of the favorites!

1:00-2:30 pm:
Electricity 101 Age: 6-8+ Fee: \$8
 Become an "electro-wiz" as you build circuit loops, light up bulbs, and connect batteries and buzzers. Leave with a complete circuit.

3:00-4:30 pm:
Great Geysers Age: 7-9+ Fee: \$8
 Use a special geyser tube (yours to keep), soda and Mentos to perform a variety of explosive experiments. Back by popular demand!
