Age 6-8: Class is appropriate for children entering 2nd, 3rd or 4th grade in the fall.

Age 8+: Class is appropriate for children entering 3rd through 6th grade in the fall.

"Craftastic" Art Classes July

Monday, July 19

10:30-11:45:
Barnyard Animals Age: 5-6
Little hands will find it easy to create a collage animal and decorate its habitat. Also enjoy our animal sounds game.

1:00-2:30 pm:
Clay Pictures Age: 6-8
Fill, flip and frame! Create colorful, 3-D works of art. Take home a beautifully framed picture.

3:00-4:30 pm:
A*Maze Your Friends Age: 8+
Do you love solving mazes? Learn how to draw your own mazes, and let your friends solve them.

Monday, July 26

10:30-11:45:
Paper Plate Bugs Age: 5-6
Create a crafty crawler using paper plates, stickers, tissue paper, and more! Kids will enjoy their creation long after leaving class.

1:00-2:30 pm:
Yo-Yos and Tops Age: 6-8
Watch amazing Yo-Yo tricks and then assemble and paint your own Yo-Yo or spinning top.

3:00-4:30 pm:
Discover Africa Age: 8+
Create your own Mancala, then delve into a rich culture of drums, story telling and village life.

Tuesday, July 20

10:30-11:45:
My 1st Art Experience Age: 5-6
From bending and dipping to rolling and cutting, children will have fun as they experience beginning art techniques.

1:00-2:30 pm:
Make Your Own Zoo Age: 6-8
Join the adventure! Learn to draw Keely the Toucan and all his zoo friends.

3:00-4:30 pm:
Rock-a-Doodle Age: 8+
With a little creativity and lots of great materials, you can make a couple of adorable pet rocks. Will you create a new species?

Tuesday, July 27

10:30-11:45:
"Bear" Necessities Age: 5-6
Teddy Bear, Teddy Bear come have fun! Teddy Bear, Teddy Bear come sing & dance! Make Teddy Bear art!

1:00-2:30 pm:
Card Creations Age: 6-8
Create an assortment of cards for every occasion. Use paper, shrinky dink designs, ribbons, stickers & more.

3:00-4:30 pm:
Discover China Age: 8+
Decorate and fly a beautiful bird kite. Learn about festivals, deep-rooted traditions, and play Zhuazi.

Wednesday, July 21

10:30-11:45:
Crafty Cars Age: 5-6
Fold, stick and zoom! Decorate the car you make with stickers, buttons, ribbons and more. Beep beep!

1:00-2:30 pm:
Puppet Productions Age: 6-8
Make a sock puppet and another puppet friend, then participate in your own production.

3:00-4:30 pm:
Cap it Off Jewelry Age: 8+
Make two pieces of bottle cap jewelry, and -*watch out!*- your friends will want you to make some for them!

Wednesday, July 28

10:30-11:45:
Paper Bag Puppets Age: 5-6
Do you have a budding puppeteer? Make paper bag puppets and then perform in our new puppet theater.

1:00-2:30 pm:
Sand Art Age: 6-8
Come play in the sand! Design a sand art bottle, then make a colorful picture using special sand.

3:00-4:30 pm:
Discover Ukraine Age: 8+
Make a pysanky egg, then explore the plains and Crimean mountain communities. Try your hand at a Hopak dance.

Thursday, July 22

10:30-11:45:
Crafty Fashion Show Age: 5-6
Craft your way to the runway. Decorate and dress up a 14" cardboard paper doll.

1:00-2:30 pm:
Sand Art Age: 6-8
Come play in the sand! Design a sand art bottle, then make a colorful picture using special sand.

3:00-4:30 pm:
Make a Mask Age: 8+
What do you want to be today? A quirky queen, powerful pirate, rowdy rock star, or king of the jungle? With some artistic flair, you can be anything behind your mask.

Thursday, July 29

10:30-11:45:
Window Art Age: 6-8
Make beautiful stained glass art with glassine paper. Watch the brilliant colors shine through on your window.

1:00-2:30 pm:
Make Your Own Zoo Age: 6-8
Join the adventure! Learn to draw Keely the Toucan and all his zoo friends.

3:00-4:30 pm:
Discover Australia Age: 8+
Make an outback map kit. Come along, mate, and find out why Australia is called "down under."

Bones, Joints & Muscles Age: 8+
Learn about the relationship between bones, joints & muscles and how it affects movement. Make a ball & socket joint.

Monday, July 26

10:30-12:00:
Blast Off! Age: 6-8
Create moon craters and learn about constellations. Learn & jump from planet to planet. Make your own moon flip book.

1:00-2:30 pm:
Electricity 101 Age: 6-8
Become an electro-whiz as you build circuit loops, light up bulbs and connect batteries and buzzers. Leave with a complete circuit.

3:00-4:30 pm:
Wild Weather Age: 8+
Tornadoes and hurricanes are part of this exciting hands-on science adventure. Take home a tornado tube!

Tuesday, July 20

10:30-11:45:
Balls & Ramps Age: 5-6
Explore how the height of a ramp affects the distance a ball will travel. Leave with a ball to continue exploring at home!

1:00-2:30 pm:
Tooth Trouble Age: 6-8
Do you know the parts of a tooth? Make a model to take home. What are jobs of your teeth?

3:00-4:30 pm:
Heart "Aches" Age: 8+
Thump...thump...thump...travel through the heart as you learn all about its parts.

Tuesday, July 27

10:30-12:00:
Dinosaur Discovery Age: 6-8
A dino digging adventure for the junior paleontologist! Learn about dinosaurs as you do a mini dig. Keep what you find.

1:00-2:30 pm:
Simple Machines Age: 6-8
Roller coaster=dump truck, bicycle=pencil sharpener. What do these items have in common? Build a simple machine to keep.

3:00-4:30 pm:
Mysteries of the Earth Age: 8+
Discover the different layers of the earth. Make a model of the earth. Create a volcano and watch it erupt!

Wednesday, July 21

10:30-12:00:
Bee Smart Age: 6-8
Learn about the parts of bees and their jobs. Make a model of a bee and a gigantic flower. Don't get stung!

1:00-2:30 pm:
Science of Special Effects Age: 6-8
Explore the science behind thrilling events you see in movies, magic shows and everyday life. Take home a class project.

3:00-4:30 pm:
Forces of Flight Age: 8+
"Mythbust" the forces that normally keep us earthbound. Leave with a pair of paper airplanes.

Wednesday, July 28

10:30-12:00:
Simple Machines Age: 6-8
Roller coaster=dump truck, bicycle=pencil sharpener. What do these items have in common? Build a simple machine to keep.

1:00-2:30 pm:
Bubbles' Unique Properties Age: 8+
Experiment with the whimsical wonder of bubbles. Discover a bubble's color when it pops. Take home a bubble chain maker.

3:00-4:30 pm:
Catch Some Rays! Age: 8+
Watch paper change. Use solar power to move an object. Learn "SUNsational" solar facts. Make a solar cooker to take home!

Thursday, July 22

10:30-12:00:
Dinosaur Discovery Age: 6-8
A dino digging adventure for the junior paleontologist! Learn about dinosaurs as you do a mini dig. Keep what you find.

1:00-2:30 pm:
Great Geysers Age: 8+
Use a special geyser tube (yours to keep), soda and Mentos to perform a variety of explosive experiments.

3:00-4:30 pm:
3-2-1 EXPLODE! Age: 8+
Put on our lab coat and goggles, and discover what happens when acids and bases clash. Find out what makes soda "pop!"

Thursday, July 29

10:30-12:00:
Boats that Float Age: 5-6
Learn why some things float and others do not. Discover how propellers and sails help boats move. Design your own boat.

1:00-2:30 pm:
Detective Science Age: 8+
Develop powers of observation with a variety of hands-on activities. Dust for fingerprints and learn how to read clues.

3:00-4:30 pm:
Blast Off! Age: 6-8
Create moon craters and learn about constellations. Learn & jump from planet to planet. Make your own moon flip book.
